NURSE CALLING SYSTEM (NCS)

Our Nurse Call System is designed keeping in view the relevance of quality nursing in today's context and gives topmost priority to it. Installing our NCS in the hospital enables efficient management of nursing staff.

Designed by highly experienced engineers.

• Room Number Display tailor made to customer requirements.

• Working successfully since past 5 Years.

• Cost effective, efficient, compact and highly reliable.

• Maintenance free.

• Makes use of super bright LEDs to enhance the life of indicators and reduce power consumption.

• Voice module with Standard voice "Please Assist, Patient is sick" instead of buzzer makes it distinguished.

• Very low working voltage to ensure patient's safety.

• Very simple design to make it easily installable and Maintenance free.

• Call from a patient remains registered till the nurse attends the patient and clears the call from his room.

NCS is specified by,

1. MAIN MICRO CONTROLLER BASED NURSE CALLING DISPLAY UNIT
